

## Welcome Back to Lutheran Home!

**Here are some friendly reminders to help keep everyone safe and health during your visit:**

- Please do not enter Lutheran Home if you have any respiratory symptoms, including: fever, cough or shortness of breath
- You must have completed your online health screen 24 hours prior to your visit on Lutheran Home's website
- Each visit is one hour in length
- Please go directly to the room or apartment of the resident that you are visiting and remain there for your entire visit. However, you may take your loved one to visit outside via the nearest exit
- You must wear your mask properly throughout your entire visit
- Remind your loved one that they must also wear their mask properly throughout the entire visit
- Please practice proper hand hygiene by washing your hands with soap and water for at least 20 seconds, or use an alcohol-based hand sanitizer that contains at least 60% alcohol before and after
- Please maintain at least six feet of social distancing with your loved one and any team members of Lutheran Home
- The Illinois Department of Public Health and Lutheran Home acknowledges the toll that separation and isolation have taken. We also acknowledge there is no substitute for physical contact, such as the warm embrace between a resident and their loved one. **Therefore, if the resident is fully vaccinated, you can choose to have close contact (including touch) with your visitor while wearing a well-fitting cloth face mask or face covering and performing hand-hygiene before and after.** Regardless, visitors should physically distance from other residents and team members in the community

**We are so happy that you are here!**
